DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-4, 9, and 10 are rejected under 35 U.S.C. 102(b) as being anticipated by Edwards.

The Edwards reference discloses a drywall tool comprising a body 21 having a distributing surface (outer surface of elements 90 and 91), a rear surface (inner surface of elements 90 and 91), a recess 35, and an orifice 45, a retainer comprising a first member 130 second rotatable member 131 which are rotatable as claimed when screws 82 are loose and each having non-uniform cross sections, angularly spaced axes, and surfaces which are spaced farther from an axis of the recess as the members are rotated, a handle 37 having a rotatable connector 38 and capable of delivering fluid to the orifice.

Allowable Subject Matter

Claims 11-20 are allowed.

Claims 5-8 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Response to Arguments

Applicant's arguments filed 1/20/06 have been fully considered but they are not persuasive. Applicant's argues that members 130 and 131 are not rotatable. However, it is the Examiner's position that the members are rotatable as claimed when the fastening screws are loose.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
